2 Release Notes

There is a release of the ISWC database software planned for Tue, 11th June @ 10:30AM CET. The expected service interruption for the production release is less than thirty minutes.

The purpose of this release is to introduce some new features. It also contains miscellaneous minor bug fixes. This release does contain a REST API change so if you integrate directly with the REST API you should consider a quick smoke test in UAT. More details on this change are listed in section 2.4 Features below.

2.1. Communication

These release notes are now finalised. A copy of these release notes will be emailed to all email addresses that have an active subscription to the REST API in production as follows:

SUBSCRIPTION	STATE	OWNER	EMAIL
021	Active	Sylvain Masson	smasson@bmi.com
058	Active	Equipe MARIO SACEM	projet-mario@sacem.fr
010	Active	Didier Roy	didier.roy@fasttrackdcn.net
005	Active	Didier Roy	didier.roy@fasttrackdcn.net
023	Active	Didier Roy	didier.roy@fasttrackdcn.net

010	Active	Andrew Rodriguez	arodriguez@ascap.com

If you have any concerns or questions regarding this planned release, please email iswc.support@cisac.org

2.2. Timescales:

UAT Release Date:

Fri 31st May 2024

Production Release Date:

Tue 11th June 2024 @ 10:30AM CET

2.3. Bug Fixes:

ID	Title	Source	Notes
30283	Circular references being created for some ISWCs	CISAC	

2.4. New Features:

ID	Title	Source	Notes
24547	Publisher Context Search	CISAC	

24548	UP Batch Matching MVP	CISAC	The responses from the Search API operations will now include a searchResults array instead of a searchResult object. This change is made to support the new searchByTitleAndContributor batch operation, which can return multiple ISWCs per submission. For the existing batch operations like searchByIswc and searchByAgencyWorkCode , these will continue to return only one ISWC, so you should update your integration to handle only the first record from the array.
31077	Enhance the Allocation and Resolution service reports to show stats per publisher	CISAC	
31476	Enable Societies to use IAS on behalf of Publishers	SGAE	
33311	Reintegrate PRS POC Changes into CISAC Repository	PRS	

To get the latest API definition use the API definition button in the developer portal as per the figure below.
