# 2 Release Notes

There is a release of the ISWC database software planned for Tue, 11<sup>th</sup> June @ 10:30AM CET. The expected service interruption for the production release is less than thirty minutes.

The purpose of this release is to introduce some new features. It also contains miscellaneous minor bug fixes. This release does contain a REST API change so if you integrate directly with the REST API you should consider a quick smoke test in UAT. More details on this change are listed in section 2.4 Features below.

## 2.1. Communication

These release notes are now finalised. A copy of these release notes will be emailed to all email addresses that have an active subscription to the REST API in production as follows:

SUBSCRIPTION	STATE	OWNER	EMAIL
021	Active	Sylvain Masson	smasson@bmi.com
058	Active	Equipe MARIO SACEM	projet-mario@sacem.fr
010	Active	Didier Roy	didier.roy@fasttrackdcn.net
005	Active	Didier Roy	didier.roy@fasttrackdcn.net
023	Active	Didier Roy	didier.roy@fasttrackdcn.net

If you have any concerns or questions regarding this planned release, please email [iswc.support@cisac.org](mailto:iswc.support@cisac.org)

## 2.2. Timescales:

### UAT Release Date:

Fri 31<sup>st</sup> May 2024

### Production Release Date:

Tue 11<sup>th</sup> June 2024 @ 10:30AM CET

## 2.3. Bug Fixes:

ID	Title	Source	Notes
30283	Circular references being created for some ISWCs	CISAC	

## 2.4. New Features:

ID	Title	Source	Notes
24547	Publisher Context Search	CISAC	

24548	UP Batch Matching MVP	CISAC	The responses from the Search API operations will now include a <b>searchResults</b> array instead of a <b>searchResult</b> object. This change is made to support the new <b>searchByTitleAndContributor</b> batch operation, which can return multiple ISWCs per submission. For the existing batch operations like <b>searchByIswc</b> and <b>searchByAgencyWorkCode</b> , these will continue to return only one ISWC, so you should update your integration to handle only the first record from the array.
31077	Enhance the Allocation and Resolution service reports to show stats per publisher	CISAC	
31476	Enable Societies to use IAS on behalf of Publishers	SGAE	
33311	Reintegrate PRS POC Changes into CISAC Repository	PRS	

To get the latest API definition use the API definition button in the developer portal as per the figure below.

The screenshot shows the ISWC Network developer portal. The main heading is "ISWC Database Agency REST API". Below the heading, there is a search bar and a navigation menu with options: HOME, APIS, PRODUCTS, ABOUT THE ISWC DATABASE, and JOHN CORLEY. The page content includes a list of API endpoints with their methods and descriptions:

- POST** Add a batch of new ISWC submissions to the database
- POST** Add a new ISWC submission to the database
- POST** Allocate a batch of new ISWC submissions
- DELETE** Delete a set of

The "Add a batch of new ISWC submissions to the database" endpoint is highlighted, and a "Try it" button is visible. A yellow button labeled "API definition" is located in the top right corner of the page.
