2 Release Notes

There is a release of the ISWC database software planned for Tue, 11th June @ 10:30AM CET. The expected service interruption for the production release is less than thirty minutes.

The purpose of this release is to introduce some new features. It also contains miscellaneous minor bug fixes. This release does contain a REST API change so if you integrate directly with the REST API you should consider a quick smoke test in UAT. More details on this change are listed in section 2.4 Features below.

2.1. Communication

These release notes are now finalised. A copy of these release notes will be emailed to all email addresses that have an active subscription to the REST API in production as follows:

SUBSCRIPTION	STATE	OWNER	EMAIL
021	Active	Sylvain Masson	smasson@bmi.com
058	Active	Equipe MARIO SACEM	projet-mario@sacem.fr
010	Active	Didier Roy	didier.roy@fasttrackdcn.net

If you have any concerns or questions regarding this planned release, please email iswc.support@cisac.org

2.2. Timescales:

UAT Release Date:

Wed 19th Mar 2025

Production Release Date:

Tue 1st Apr 2025 @ 10:30AM CET

2.3. Bug Fixes:

ID	Title	Source	Notes
45661	Optimise CSN job	CISAC	
46767	Add third party EDI file queue & optimisation	CISAC	
45967	Inefficient search on ISRC additional identifiers causing timeouts	AUN	

46355	Third party search not returning some cached Iswcs	Spotify; Google	

2.4. New Features:

ID	Title	Source	Notes

To get the latest API definition use the API definition button in the developer portal as per the figure below.

The screenshot shows the ISWC Network developer portal. The header includes the ISWC Network logo and navigation links: HOME, APIS, PRODUCTS, ABOUT THE ISWC DATABASE, and a user profile for JOHN CORLEY. A search bar is located in the top left. The main content area displays the 'ISWC Database Agency REST API' page. A yellow button labeled 'API definition' is highlighted in the top right corner. The page content includes a search bar, a list of API endpoints, and a 'Try it' button. The endpoints listed are:

- POST** Add a batch of new ISWC submissions to the database
- POST** Add a new ISWC submission to the database
- POST** Allocate a batch of new ISWC submissions
- DELETE** Delete a set of

The main content area also displays the title 'ISWC Database Agency REST API', a link for 'API change history', and the description 'ISWC Database Agency/Society REST API'. Below this, there is a section titled 'Add a batch of new ISWC submissions to the database' with a 'Try it' button and a 'Request' section.
