# 2

## Release Notes

There is a release of the ISWC database software planned for Tue, 21<sup>st</sup> November @ 10AM CET. The expected service interruption for the production release is three hours.

The purpose of this release is to introduce some new features. It also contains miscellaneous minor bug fixes. This release does contain a REST API change so if you integrate directly with the REST API you should consider a quick smoke test in UAT. More details on this change are listed in section 2.4 Features below.

### 2.1. Communication

These release notes are now finalised. A copy of these release notes will be emailed to all email addresses that have an active subscription to the REST API in production as follows:

| SUBSCRIPTION | STATE  | OWNER                            | EMAIL                             |

If you have any concerns or questions regarding this planned release, please email [iswc.support@cisac.org](mailto:iswc.support@cisac.org)

## 2.2. Timescales:

### UAT Release Date:

Mon 27<sup>th</sup> October 2025

### Production Release Date:

Tue 25<sup>th</sup> November 2025 @ 10AM CET

## 2.3. Bug Fixes:

| ID    | Title                                                                                   | Source | Notes |
|-------|-----------------------------------------------------------------------------------------|--------|-------|
| 49217 | Tighten the replaced works search criteria to avoid retrieving irrelevant deleted works | CISAC  |       |
| 56385 | Incorrect comparison operator in WorkflowManager date filter                            | CISAC  |       |

## 2.4. New Features:

| ID    | Title                                               | Source | Notes |
|-------|-----------------------------------------------------|--------|-------|
| 46480 | Publisher Context Search - IP Centric Response      | CISAC  |       |
| 49746 | Enhance matching by accommodating trailing articles | CISAC  |       |
| 51738 | Upgrade solution from .NET Core 3.1 to .NET 8       | CISAC  |       |

To get the latest API definition use the API definition button in the developer portal as per the figure below.

The screenshot displays the ISWC Network developer portal interface. At the top, there is a navigation bar with links for Home, APIs, Products, About, Reports, Profile, and Sign out. Below the navigation bar, the main content area is titled "ISWC Database REST API - Agency". On the left side, there is a search bar and a "Group by tag" toggle. The main content area on the right shows the API definition for the "ISWC Database REST API - Agency". It includes a "Contact" section with the email address [iswc.support@cisac.org](mailto:iswc.support@cisac.org). Below this, there is a section titled "Add a batch of new ISWC submissions to the database" with a "Try it" button. The bottom section is labeled "Request" and contains a "Request" button.
